Virtual Corporation and MIR3 to Provide Intelligent Notification Solutions through Virtual's Enterprise Business Continuity Software, Sustainable Planner™

Budd Lake, NJ, September 16, 2008, Virtual Corporation, a business continuity consulting service and software corporation, today announced that their innovative web-based BC/DR planning tool, Sustainable Planner™ now directly interfaces with MIR3, Inc. world class inEnterprise™ software notification tool.

Scott Ream, Virtual's President expresses the value of this partnership to Virtual's existing and future clients, "Sustainable Planner users love our product for how simply they can update and maintain their BC planning data including call lists and recovery team lists. SP's integration with MIR3, those same contact lists can be seamlessly shared with inEnterprise to populate its recipient, device, group and other relevant entries from which a variety of notifications can be created and initiated. Equally important, inEnterprise can pass information back to SP to display notification status or populate management reports."

inEnterprise can also be launched directly from Sustainable Planner's dashboard or from any Survey (data collection) page, giving authorized users access to the full menu capabilities of the MIR3 platform.

Margaret Langsett, Virtual's EVP Marketing sees many benefits to collaboration with MIR3. "Virtual Corporation has attained a global reputation as the innovator in building sustainable, practical BC programs for our clients. This partnership builds on that reputation in bringing MIR3's extensive credibility and capabilities in the notification space".

For further information, Virtual Corporation can be contacted on line at <http://www.virtual-corp.net> or by phone at (973) 426-1444.

About Virtual Corporation

In business for more than 14 years, Virtual has helped numerous enterprises ensure that they can recover from business disruptions by designing and implementing sustainable business continuity programs.
